

E. H. "ADDIE"

I have been an artist my entire life and consider myself to be a multifaceted artist exploring many forms of art. The art is experimental as well as traditional. Creating little visual stories is very rewarding because of the smiles that they bring.

My goal has been to share what I love and to make it affordable so that everyone can have the chance to own an original work of Fine Art. Every day, I'm inspired by the beauty God has created in this world and my art is to be a reflection of this for all to enjoy.
